

JOB DESCRIPTION

Job Title: Digital Loan Officer

Location: Blantyre

Job Type: Internship (6 months)

Job Purpose

To manage and monitor the **end-to-end digital loan process**, loan performance and related technical operations.

Key Responsibilities

- Monitor loans from application, approval and disbursement through repayment and closure.
- Track loan performance, repayments, overdue loans and defaults.
- Monitor the digital lending platform, APIs and integrations with MNOs, payment platforms and CRBs.
- Identify and follow up on failed transactions, system issues and loan processing exceptions.
- Work with IT, Finance, Collections and vendors to resolve operational and technical issues.
- Support system testing, UAT and digital lending enhancements.
- Prepare regular loan performance and system issue reports.

Key Requirements

- Bachelor's Degree in IT, Computer Science, Information Systems or a related IT field.
- Experience in digital lending, fintech, banking or financial systems is an advantage.
- Understanding of digital lending processes, APIs and system integrations.
- Strong analytical, troubleshooting and communication skills.

Key KPIs

- Loan processing and disbursement success rate
- Repayment and overdue loan performance
- System/API availability
- Failed transaction rate
- Issue resolution time

How to Apply

Interested candidates should submit a cover letter, detailed CV, and copies of relevant certificates not later than Friday the 28 of August 2026 to loans@swiftcapital.mw.
